# PDIC drums up support for ailing banks

## Rice imports seen to hit 2M tons in 2010

**By Douglas J. Davis**

WASHINGTON — The Federal Deposit Insurance Corp. (FDIC) is drumming up support for ailing banks, a move that could help them avoid bankruptcy and the loss of jobs.

The FDIC, which insures deposits at banks and thrifts, has been hit hard by the economic crisis. It has lost billions of dollars in assets and is facing a massive increase in claims against it.

In a move to help banks, the FDIC has been pushing for a new law that would allow it to take over failing banks and sell them to healthy ones. This would help the FDIC avoid the costs of liquidating the banks and would also help the banks continue to operate.

The FDIC has also been pushing for a new law that would allow it to provide more support to banks that are struggling. This would help the FDIC avoid the costs of liquidating the banks and would also help the banks continue to operate.

WASHINGTON — The U.S. Cacao Marketing Board (USCMB) is forecasting that cacao imports will hit 2 million tons in 2010, up from 1.5 million tons in 2009.

The USCMB is a government agency that regulates the cacao market. It has been pushing for a new law that would allow it to provide more support to cacao farmers.

The USCMB has also been pushing for a new law that would allow it to provide more support to cacao farmers. This would help the USCMB avoid the costs of liquidating the banks and would also help the banks continue to operate.
